ONE 16

Jetski Extension Platform

ONE 16

The ONE 16 is the Jetski extension platform that allows you to convert your Jetski into a small boat and host up to 6 people. Compatible with Sea-Doo®, Yamaha® and many other brands.

We love the adrenalin of riding a Jetski, but we felt that it would have been nicer to share this emotion with our friends. We came up with this solution to enjoy our beloved Spanish coast during a sunny afternoon with our friends, without having to charter an expensive boat. The Jetski can be connected and disconnected to the ONE 16 in a matter of minutes, so we can enjoy a ride on the Jetski, while other friends are sunbathing in the ONE 16. We designed the ONE 16 to be under 6m, that means that you don't need any additional boating license to drive it.

EXTRA OPTIONS

ONE CUSTOM PROGRAMME is our exclusive customization program designed for those customers who want their ONE 16 to be unique and reflect their individual personality and tastes.

With ONE CUSTOM PROGRAMME, you can choose from a wide variety of fabrics, deck finishes, colors, hardware and details to make a truly unique vessel tailored to your needs and desires.

Our selection of materials and customization options is very extensive, thanks to our continuous research and development process to offer you an exceptional customization experience.

And we don't just stick to purely aesthetic customization, our program also offers an exclusive service that will provide you with everything you need to have your ONE boat fully operational. This can include finding or recommending a PWC, floating docking platform, as well as other equipment and accessories customized to the client's preferences.

DESIGN CATEGORY AND CONDITIONS OF USE

The ONE WATER TOYS é ONE 16 has been CE marked and designed in category C, as stipulated in Directive 2013/53/EU of the European Parliament and of the Council on recreational craft. This means that the boat is designed for navigation in coastal waters, large bays, estuaries, lakes, and rivers, where conditions may be experienced up to and including winds of Beaufort force 6 and significant wave heights of 2 meters.

Ensure that the expected wind and sea conditions correspond to your vessel's design category and that you and your crew are capable of manoeuvring in these conditions. Also, ensure that the PWC used to propel this vessel complies with the regulations of the boating location.

CE DECLARATION OF CONFORMITY

Declaration of conformity for the ONE WATER TOYS - ONE 16 boat with the requirements of Directive 2013/53/EU, inspected and verified by EUROCONTROL.

The category is determined by the maximum number of persons allowed on board. CE certification indicates that a boat is designed and constructed to maintain its stability and buoyancy under certain circumstances and meets other important requirements specific to the category in question. One of these requirements is that the boat must be easy to manoeuvre.

General requirements

Main Features & Dimensions	EN ISO 8666:2021
Vessel Identification Number	EN ISO 10087:2022
Builder's plate	EN ISO 14945:2021
Falling overboard prevention	EN ISO 15085:2003
Visibility from the government position	EN ISO 11591:2021
Owner's Manual	EN ISO 10240:2024

Integrity requirements and construction characteristics

Structure	EN ISO 12215-1:2019
Stability and freeboard	EN ISO 12217-3:2022
Buoyancy	EN ISO 12217-3:2022
Water inlet	EN ISO 12217-3:2022
Openings in the hull and deck	EN ISO 12215-1:2019
Maximum recommended load	EN ISO 14946:2022
Anchoring, mooring and towing	EN ISO 14946:2022

PROFESSIONAL DEMO & MARKET VALIDATION PROGRAMME

At One Water Toys, we provide selected partners with the opportunity to validate the ONE 16 in real operational conditions before commercial deployment.

This programme is designed for qualified clients and operators who require real-world performance validation in their target market and test the ONE 16 in their own environment.

What's included:

- ONE 16 unit available for a defined period (typically 5–7 days).
- On-site setup & operational guidance.
- Training and usage recommendations- Direct support during the evaluation period.

Investment:

- Programme fee starting from €5,000
- Transport, logistics, deposit and taxes not included.
- Accommodation & travel expenses may apply depending on location.

Important:

- This programme is designed for qualified clients with real acquisition intent.
- The program fee can be credited towards a confirmed purchase within a defined period.

Objectives:

- Validate business potential
- Test real performance in target market
- Evaluate ROI and client response
