### Friday 1

#### HYDROBIKES With #BestFriend

<https://www.esc.guide/post/hydrobikes-with-best-friend>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Non-polluting, easy to ride, lightweight, safe and stable with 400 lbs flotation, Hydrobikes are enjoyed by everyone from 8-90. Seniors love our Hydrobikes!

#### HYDROBIKES in #HotelCoraAndMarina, #Ensenada (#MEXICO)

<https://www.esc.guide/post/hydrobikes-in-hotel-coral-and-marina-ensenada-mexico>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Non-polluting, easy to ride, lightweight, safe and stable with 400 lbs flotation, Hydrobikes are enjoyed by everyone from 8-90. Seniors love our Hydrobikes!

#### SHERP FF – #Firefighting Edition

<https://www.esc.guide/post/sherp-firefighting>

SHERP Firefighting UTV is a one-of-a-kind solution to fight forest fires, that embodies all the best technologies and capabilities of SHERP!

#### SHERP / Case Study: 101 State Emergency Service of Ukraine

<https://www.esc.guide/post/sherp-case-study-101-state-emergency-service-of-ukraine>

This Apocalyptic Vehicle Is #RescuingSurvivors in Ukraine.

#### SHERP / Case Study - "To the East!" from Archangelsk to Anadyr

<https://www.esc.guide/post/sherp-case-study-to-the-east-from-archangelsk-to-anadyr>

A big SHERP ATV expedition "To the East!" from Archangelsk to Anadyr, and further to America (in 2019), has started in spring 2017. First part of the route is taking place on off-road terrain in the polar summer conditions. After a technical break during which the team will go back to the mainland, the expedition will go across Bering Sea, that washes the coasts of Russia and USA and continue its way to Alaska. The entire expedition will be done on the SHERP ATVs (10 wheel unit). The beginning of the second part of the expedition is planned for the beginning of the 2019.

#### 01/03/21: Ukraine presents an all-terrain vehicle in Turkey that has no analogs in the world

<https://www.esc.guide/post/01-03-21-ukraine-presents-an-all-terrain-vehicle-in-turkey-that-has-no-analogs-in-the-world>

A presentation of the unique domestic SHERP all-terrain vehicle took place in Ankara.

### SHERP The Ark - People Mover

<https://www.esc.guide/post/sherp-the-ark>

The people mover version of SHERP the Ark is designed to carry groups of people in the most extreme conditions. This powerful machine can be used in rescue operations for victims of natural disasters, such as floods or earthquakes. It will also be easier to organize extreme tours for thrill seekers. The passengers will be as safe as the driver. Another obvious advantage of the passenger model is the ability to take on board up to 21 passengers (3 in the front section and 18 in the rear section) plus the driver. Transporting or saving people will require less time and effort. All the main characteristics of SHERP the Ark are the same: the machine is capable of traversing grass, forest, sand, peat, moor, marsh, beach, dunes, rocks, scree, gravel, snow, ice, and climbing from water to ice.

### MENZI MUCK M545x

<https://www.esc.guide/post/menzi-muck-m545x>

The #WalkingExcavators' special features are based on a sophisticated high-tech chassis and the patented boom: various hydraulic cylinders enable the all-rounder to adapt its wheels and supports to any terrain.

### 01/03/18: Road Rake Cleanup with the Kier Group

<https://www.esc.guide/post/01-03-18-road-rake-cleanup-with-the-kier-group>

Our friends over at the Kier Group recorded this video, which shows how the Barber Road Rake has made their roadside cleanup operation much faster and safer.

### MENZI MUCK #Anti-Flood Projects

<https://www.esc.guide/post/menzi-muck-anti-flood-projects>

In #construction Menzi Muck is a synonym for an extremely versatile and powerful tool.

## Saturday 2

### SHERP / Case Study: OSP Nowy Cydzyn

<https://www.esc.guide/post/sherp-case-study-osp-nowy-cydzyn>

#CivilProtection of Nowy Cydzyn - a village in Poland located in the Podlaskie Voivodship, in the Łomża County.

### MENZI MUCK M545

<https://www.esc.guide/post/menzi-muck-m545>

The #WalkingExcavators' special features are based on a sophisticated high-tech chassis and the patented boom: various hydraulic cylinders enable the all-rounder to adapt its wheels and supports to any terrain.

### MENZI MUCK #ExtremeSlope

<https://www.esc.guide/post/menzi-muck-extreme-slope>

In construction #MenziMuck is a synonym for an extremely versatile and powerful tool.

### MENZI MUCK #MunicipalServices

<https://www.esc.guide/post/menzi-muck-municipal-services>

The Menzi Muck all terrain spider excavator even proves its versatility within the context of water supply and distribution.

### HYDROBIKES For #Dads

<https://www.esc.guide/post/hydrobikes-for-dads>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Non-polluting, easy to ride, lightweight, safe and stable with 400 lbs flotation, Hydrobikes are enjoyed by everyone from 8-90. Seniors love our Hydrobikes!

### HYDROBIKES For #Moms

<https://www.esc.guide/post/hydrobikes-for-moms>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Non-polluting, easy to ride, lightweight, safe and stable with 400 lbs flotation, Hydrobikes are enjoyed by everyone from 8-90. Seniors love our Hydrobikes!

### Introducing The Maxgate Landing System

<https://www.esc.guide/post/introducing-the-maxgate-landing-system>

The Maxgate Landing System can be optioned onto any of our landing craft designs.

### High Speed #LandingCraft – LC-9

<https://www.esc.guide/post/high-speed-landingcraft-lc-9>

The LC-9 incorporates a number of innovative Hard Drive Marine features including a massive Maxgate landing door and a modular console.

### BARBER / SURF RAKE - #BeachCleaningMachines

<https://www.esc.guide/post/en-surf-rake>

The Barber SURF RAKE is the world's most popular beach cleaning machine and is used in over 90 countries on 6 continents. As a tractor-towed machine, it is ideal for cleaning medium to large beaches.

Barber beach cleaning machines are effective in removing beach pollution such as seaweed, dead fish, glass, syringes, plastic, cans, cigarettes, shells, stone, wood and virtually any unwanted debris. Barber beach cleaning machines are even used to effectively remove oil and tar balls from beach sand after oil spill disasters.

### CubePool Sport&Spa 6m

<https://www.esc.guide/post/cubepool-sport-spa-6m>

6 m long and 2.5 m wide ready to use container pool.

CubePool Sport&Spa features a jet swim system. You can move to a professional swimming world with a flip of a switch.

Apart from the regulated flow system, CubePool Sport & Spa has all the features of CubePool Premium.

With CubePool Sport & Spa you can enjoy the full CubePool Experience!

### 02/03/22: Largest ever test of robot naval tech in fortnight-long Middle East exercise

<https://www.esc.guide/post/02-03-22-largest-ever-test-of-robot-naval-tech-in-fortnight-long-middle-east-exercise>

Super-fast stealth speed boats and drones launched by Royal Navy vessels offered a glimpse of the future of naval operations in the Gulf.

### 20/02/24: Australia Works Maritime Autonomous Systems

<https://www.esc.guide/post/20-02-24-australia-works-maritime-autonomous-systems>

Recently, the Hudson Institute hosted a session looking at how the Australian Navy is approaching the opportunity to incorporate maritime autonomous systems in the fleet.

### Sunday 3

#### 03/03/20: Barber TURF RAKE - Horse Arena Stone Picking

<https://www.esc.guide/post/03-03-20-barber-turf-rake-clearing-stones-out-of-this-outdoor-arena>

Get an upclose look at the Barber TURF RAKE clearing stones out of this outdoor arena!

#### MENZI MUCK M340

<https://www.esc.guide/post/menzi-muck-m340>

The walking #excavators' special features are based on a sophisticated high-tech chassis and the patented boom: various hydraulic cylinders enable the all-rounder to adapt its wheels and supports to any terrain.

#### HYDROBIKES #BestRentalBusiness

<https://www.esc.guide/post/hydrobikes-best-rental-business>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Non-polluting, easy to ride, lightweight, safe and stable with 400 lbs flotation, Hydrobikes are enjoyed by everyone from 8-90. Seniors love our Hydrobikes!

#### HYDROBIKES For #Families

<https://www.esc.guide/post/hydrobikes-for-families>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Non-polluting, easy to ride, lightweight, safe and stable with 400 lbs flotation, Hydrobikes are enjoyed by everyone from 8-90. Seniors love our Hydrobikes!

#### SHERP / Case Studies - Powerlines

<https://www.esc.guide/post/sherp-case-studies-powerlines>

Energy companies which produce/deliver energy, power generation and infrastructure management.

#### MOMO #ContainerPools – Case Study: Cicha Polana

<https://www.esc.guide/post/momo-containerpools-case-study-cicha-polana>

CubePools are fully functional swimming pools that allow you to enjoy a range of amenities with minimal owner involvement. Our pools are manufactured according to the preferences and requirements of the owner. They're characterized by mobility, and thus quick assembly and no burdensome construction work. The undoubted advantage is the fact that the pool can be used immediately after filling it with water.

### High Speed #LandingCraft – LC-22

<https://www.esc.guide/post/high-speed-landingcraft-lc-22>

The LC22 with the Maxgate landing door and heavy-duty hydraulics not only allows you to drive large vehicles on and off the beach, it will easily lift a truck as well.

The mobile console, called the Maxhelm, allows the captain to position himself anywhere necessary on the boat, ensuring maximum visibility, comfort, and safety, regardless the configuration of the load.

### WATERMATE

<https://www.esc.guide/post/watermate>

We have been in the adventure tours organizing business for more than 25 years. Our boats are developed on the basis of this long experience & wisdom we've gained over the years.

03/03/23: US Navy Task Force 59 Reaches Full Operational Capability, aims for 100 UXVs

<https://www.esc.guide/post/03-03-23-us-navy-task-force-59-reaches-full-operational-capability-aims-for-100-uxvs>

US Navy Vice Admiral Brad Cooper discusses the latest milestones of Task Force 59 (TF59) during IDEX 2023 in Abu Dhabi.

### GLAMPHOUSE

<https://www.esc.guide/post/glamphouse>

Glamphouse is a leading glamping tent manufacturer in The Baltic states! Our projects can be found throughout Europe. We cater for small and big projects and can partner with you to create an unforgettable glamping destination in your local area.

### What Outdoor Tent Fabric Is The Best?

<https://www.esc.guide/post/what-outdoor-tent-fabric-is-the-best>

The best outdoor tent fabric!

### MENZI MUCK #Forestry

<https://www.esc.guide/post/menzi-muck-forestry>

Profitable, mechanical timber harvesting in challenging terrain has been made possible by the Menzi Muck harvester.

### Monday 4

#### High Speed #LandingCraft – LC-28

<https://www.esc.guide/post/high-speed-landingcraft-lc-28>

The LC-28 incorporates a number of innovative Hard Drive Marine features including a massive Maxgate landing door and a modular console.

#### HYDROBIKES in #Rapla (#ESTONIA)

<https://www.esc.guide/post/hydrobikes-in-rapla-estonia>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Nestled amidst the breathtaking beauty of the Rodopi Mountains, we are bringing you an eco-friendly camping experience like no other at Dam Batak.

### MENZI MUCK #Logging

<https://www.esc.guide/post/menzi-muck-logging>

Profitable, mechanical timber harvesting in challenging terrain has been made possible by the Menzi Muck harvester.

### What Is #Glamping?

<https://www.esc.guide/post/what-is-glamping>

It seems that the words "hiking" and "convenience" lie in completely different planes, and they are not allowed to intersect under any circumstances. But it only seems! Many travelers have already chosen for themselves a relatively new type of outing into nature with all the amenities – glamping. What is it, how much does it cost, and where to go for it – let's figure it out together.

### How to #GainProfit with public space at #Glamping?

<https://www.esc.guide/post/how-to-gain-profit-with-public-space-at-glamping>

How to use GLAMPHOUSE? Top 3 ideas for organizing a public area in glamping!

### Wednesday 6

#### MOMO #ContainerPools – Case Study: Cicha Polana

<https://www.esc.guide/post/momo-containerpools-case-study-cicha-polana>

CubePools are fully functional swimming pools that allow you to enjoy a range of amenities with minimal owner involvement. Our pools are manufactured according to the preferences and requirements of the owner. They're characterized by mobility, and thus quick assembly and no burdensome construction work. The undoubted advantage is the fact that the pool can be used immediately after filling it with water.

#### High Speed #LandingCraft – LC-16

<https://www.esc.guide/post/high-speed-landingcraft-lc-16>

Build #16 is the same platform as the Build #9 and Build #12 and also includes a few upgrades.

#### GRABNER / #InflatableSailCatamarans

<https://www.esc.guide/post/inflatable-sail-catamarans>

The HAPPY CAT is an inflatable catamaran that can be transported in just 3 bags. The 4-piece mast is plugged together and fit into the 185 cm long bag. The HAPPY CAT fits in almost any car, RV and can even be taken on the plane. With a little practice, the catamaran can be assembled by one person in around 30 minutes. The hulls are inflated with a hand pump or electric air pump in about 5 minutes.

#### 8<sup>th</sup> International HAPPY CAT sailing meeting 2023

<https://www.esc.guide/post/8th-international-happy-cat-sailing-meeting-2023>

After a 3-year break due to a pandemic, the popular HAPPY CAT sailors' meeting finally took place again in 2023 in Ebensee on Lake Traunsee. In changeable summer weather, over 70 HAPPY CATs and 150 people from 7 nations (Germany, Austria, Switzerland, Belgium, Czech Republic, Slovakia, Hungary) sailed across Lake Traunsee.

### GRABNER #SailingAcademy

<https://www.esc.guide/post/grabner-sailing-academy>

In these videos you will learn the most important basics of sailing. If you've always wanted to learn how to sail, these films are just right for you. The chapters are structured similarly to a basic sailing licence in a sailing school. Everything is explained as simply as possible so that you can concentrate on the essentials.

### UMS 585 DC

<https://www.esc.guide/post/ums-585-dc>

Boat UMS 585 DC – Designed for hard operating conditions on open water, the uncompromisingly strong and reliable hull will be a convenient universal solution for active family recreation, fishing and solving professional tasks. High flip resistance allows you to confidently perform maneuvers at the highest speeds.

A boat with complex shape and excellent seaworthiness. We removed rivets and fasteners in the hull construction – all parts are securely welded to the hull, which ensures long-term operation without the need for maintenance of your boat. Careful building of the hull allows to make boats without additional painting.

### Garden Bar Container 3x2m XL with a Foldable Canopy

<https://www.esc.guide/post/garden-bar-container-3x2m-xl-with-a-foldable-canopy>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Non-polluting, easy to ride, lightweight, safe and stable with 400 lbs flotation, Hydrobikes are enjoyed by everyone from 8-90. Seniors love our Hydrobikes!

### HYDROBIKES in #Argostoli (#GREECE)

<https://www.esc.guide/post/hydrobikes-in-argostoli>

Hydrobike water bikes have been synonymous with fun & fitness on the water in 74 countries since our founder invented our pedal-powered water bike 25 years ago, in USA. Non-polluting, easy to ride, lightweight, safe and stable with 400 lbs flotation, Hydrobikes are enjoyed by everyone from 8-90. Seniors love our Hydrobikes!

### 22/02/24: Navy pulls trigger on new robotics warfare specialist rating

<https://www.esc.guide/post/22-02-24-navy-pulls-trigger-on-new-robotics-warfare-specialist-rating>

Robotics warfare specialists will be the Navy's subject matter experts for computer vision, mission autonomy, navigation autonomy, data systems, artificial intelligence and machine learning for uncrewed and autonomous platforms.

### 11/03/24: Hicks: DOD plans to invest about \$1B into Replicator initiative in 2024-2025 time frame

<https://www.esc.guide/post/11-03-24-hicks-dod-plans-to-invest-about-1b-into-replicator-initiative-in-2024-2025-time-frame>

The stated goal of Replicator is to deliver thousands of relatively low-cost, "attributable" autonomous systems across multiple domains in 18 to 24 months to help the Pentagon counter China's military buildup.

Friday 15

### MOMO BarnHouse

<https://www.esc.guide/post/momo-barnhouse>

MOMO Barn House (47 m<sup>2</sup> modular steel house in turn-key standard) is a modular all-year round house based on a steel frame. Ground floor with a spacious living room with a kitchenette, bathroom and entry hall. On the first floor you will find two extra bedrooms. The house is built on our production site passing through all stages of production until it is completely finished. After completion at the production site, it is transported to its final destination. MOMO Barn House is assembled within 1-2 days and then ready to use. The house is delivered in a turn-key standard.

### UMS 865 Cab

<https://www.esc.guide/post/ums-865-cab>

Completely aluminum boat UMS 865 is the largest serial cabin boat built by UMS company. The UMS 865 Cab modification is equipped with a comfortable cabin in the bow, which provides possibility of rest during long trips. UMS 865 Cab, like UMS 865 HT, can be equipped with one or two engines with a total capacity of up to 500 hp. Due to the high strength characteristics, UMS 865 withstands even the most severe conditions. The size of the boat provides enough space for both professional tasks and active recreation. In addition, the boat can be equipped with a sleeping place in the cabin, a heater, a kitchen module, a refrigerator and a toilet in a separate compartment.

### Restaurant in a Container 4x2 meters Anthracite Color RAL 7016

<https://www.esc.guide/post/restaurant-in-a-container-4x2-meters-anthracite-color-ral-7016>

This 4x2m Restaurant in a Container from Bar Container on a busy street can quickly serve their customers.

### SHERP / Case Studies: #SearchAndRescue

<https://www.esc.guide/post/sherp-case-studies-search-rescue>

Emergency services, search & rescue operations, all-kinds of organizations, which protect and save people: fire departments, humanitarian missions, local S&R departments etc.

### BULDOCK / #JetSliders

<https://www.esc.guide/post/jet-slider>

BulDock floating Jet Slider is a unique dry-dock system. Its' exceptional design prevents any disproportionate strain on the hull by distributing the watercraft's weight equally. The Jet Slider does not feature any moving parts, which might be damaged or require additional maintenance. Designed to cater to your needs, this BulDock product makes the servicing of your watercraft a much easier and pleasurable experience.

### SOLEMARAN in #Huskatlen

<https://www.esc.guide/post/solemaran-in-huskatlen>

Solemarans are products created by a Warsaw design studio. COCO is not a pedalo – it is a completely new and innovative type of a floating unit – call it a water sunlounger, a private island or a water bed, with room enough for 5 people!

### WATERCAR / H1-Panther

<https://www.esc.guide/post/watercar>

With 20+ years of experience and all the successes and failures behind them, this turned out to be by far the most challenging project the team has ever attempted.

The end product speaks for the skill and tenaciousness of the #WaterCar team in USA. Capable of highway speeds on land and thirty-five knots on water, the four-wheel-drive H1-Panther transitions between land and water in under 20 seconds.

### WATERCAR / H1-Panther - Operational Instructions Video

<https://www.esc.guide/post/watercar-operational-instructions-video>

With 20+ years of experience and all the successes and failures behind them, this turned out to be by far the most challenging project the team has ever attempted.

The end product speaks for the skill and tenaciousness of the #WaterCar team in USA. Capable of highway speeds on land and thirty-five knots on water, the four-wheel-drive H1-Panther transitions between land and water in under 20 seconds.

### SHERP The Ark - Universal Platform

<https://www.esc.guide/post/sherp-the-ark-universal-platform>

The SHERP the Ark all-terrain vehicle with a universal platform is ideal when you need to transport cargo to or from places that usual platforms can't pass. The machine is equipped with everything necessary to secure a load, and high through put will allow you to successfully complete any operation. Crossing a river or boulders on the way is not a problem. Everything will be delivered safe and sound.

### SHERP / Case Studies – Constructions

<https://www.esc.guide/post/sherp-case-studies-constructions>

**Description:** Companies that are involved in real estate development, construction and dredging work in hard-to-reach areas, remote constructions of private equity and public infrastructure.

### 14/02/24: Navy Will Stand Up Lethal Drone Unit Later this Year, First Replicator USVs Picked

<https://www.esc.guide/post/11-03-24-hicks-dod-plans-to-invest-about-1b-into-replicator-initiative-in-2024-2025-time-frame>

SAN DIEGO – The Navy will establish a second unmanned surface vessel squadron in the next few months, as the Pentagon accelerates unmanned systems development to tackle an expansionist China in the Western Pacific, a service official announced Wednesday.

### 11/03/24: Pentagon Will Spend \$1B on First Round of Replicator Drones

<https://www.esc.guide/post/11-03-24-pentagon-will-spend-1b-on-first-round-of-replicator-drones>

THE PENTAGON — The Defense Department's early effort to build a fleet of small, unmanned craft designed to stymie a Chinese invasion of Taiwan will cost about \$1 billion, Deputy Defense Secretary Kathleen Hicks said on Monday.

**Saturday 16**

### 16/03/23: How to Build and Operate a 500-Ship U.S. Navy

<https://www.esc.guide/post/16-03-23-how-to-build-and-operate-a-500-ship-u-s-navy>

In an address at the 2022 AFCEA/US Naval Institute “West” conference, Chief of Naval Operations Admiral Michael Gilday revealed the Navy’s goal to reach 500 ships by adding approximately 150 unmanned maritime vehicles to the Navy’s inventory. This plan added additional detail to the Navy’s Unmanned Campaign Framework.

### 16/03/23: Payloads and USVs: Transporting the Wounded

<https://www.esc.guide/post/16-03-23-payloads-and-usvs-transporting-the-wounded>

Ed Timperlake and I focused on the shift from platforms to payloads in shaping multi-domain combat forces.

### 16/03/23: International Maritime Exercise 2023 Ends during Ceremony in Oman

<https://www.esc.guide/post/16-03-23-international-maritime-exercise-2023-ends-during-ceremony-in-oman>

U.S. Naval Forces Central Command (NAVCENT) led the 18-day naval training event, which it combined with exercise Cutlass Express led by U.S. Naval Forces Europe-Africa. More than 7,000 personnel from more than 50 nations and international organizations participated.

### 16/03/23: USN deploys uncrewed vehicle on exercise with CMF task force

<https://www.esc.guide/post/16-03-23-usn-deploys-uncrewed-vehicle-on-exercise-with-cmf-task-force>

The US Navy (USN) has integrated an uncrewed system into a Combined Maritime Forces (CMF) task force to support at-sea training in the Gulf.

### 16/03/23: Building and Operating a Hybrid Fleet in the Pacific: A Key Area for U.S. Navy and RAN Cooperation

<https://www.esc.guide/post/16-03-23-building-and-operating-a-hybrid-fleet-in-the-pacific-a-key-area-for-u-s-navy-and-ran-coo>

The USN’s commitment to a future fleet comprised of as many as 150 unmanned maritime systems did not instantly materialize, and it is worth examining this journey. This is due to the fact that the ADF and RAN will likely have to socialize such a change in the composition of Australia’s Navy over time and in much the same way.

### UMS 700 HT

<https://www.esc.guide/post/ums-700-ht>

The UMS 700 HT aluminum boat is a speed boat. It is intended for use with outboard motors with a maximum power of up to 250 hp. Like all boats built by the UMS company, it has unique characteristics of strength, the boat is adapted to the most severe operating conditions. Designed for rescuers, water police and other services related to water spaces, for fishermen, hunters and people who lead an active lifestyle. For additional comfort, the boat can be equipped with a sleeping place.

### BARBER / LITTER PICKER - #LitterCollectionMachine

<https://www.esc.guide/post/litter-picker>

The LITTER PICKER Model LP1 is our tractor-towed and powered litter collection machine for removing trash from large grass, soil, and paved surfaces expeditiously faster than manual cleaning methods.

### BARBER / ROAD RAKE - #RoadwayLitterCollection Machine

<https://www.esc.guide/post/road-rake>

The Barber ROAD RAKE's primary purpose is to remove large debris from the sides of roads, highway medians, shoulders, parking lots, and other paved surfaces that are too large and potentially damaging for street sweepers.

### 03/02/24: U.S Navy To Use Swarms of Marine Drones For Preventing Chinese Invasion of Taiwan

<https://www.esc.guide/post/03-02-24-u-s-navy-to-use-swarms-of-marine-drones-for-preventing-chinese-invasion-of-taiwan>

The U.S Navy is planning to acquire thousands of armed sea-borne attack drones from 2025 to prevent the Chinese invasion of Taiwan.

### BULDOCK / Case Study: The Floating Island

<https://www.esc.guide/post/buldock-case-study-the-floating-island>

We are thrilled to announce the launch of our incredible new project, "The Floating Island," in collaboration with the Watersports Club "West Rodopi" and supplied by BULDOCK! Nestled amidst the breathtaking beauty of the Rodopi Mountains, we are bringing you an eco-friendly camping experience like no other at Dam Batak.

### MOMO #ContainerPools

<https://www.esc.guide/post/momo-container-pools>

CubePools are fully functional swimming pools that allow you to enjoy a range of amenities with minimal owner involvement. Our pools are manufactured according to the preferences and requirements of the owner. They're characterized by mobility, and thus quick assembly and no burdensome construction work. The undoubted advantage is the fact that the pool can be used immediately after filling it with water.

### 07/03/24: Ukraine's potent marine drones spark global arms race

<https://www.esc.guide/post/07-03-24-ukraine-s-potent-marine-drones-spark-global-arms-race>

World powers aim to capitalise on Ukraine's marine innovations, which could transform naval warfare.

### Sunday 17

#### 17/03/23: 70 truckloads of debris have been removed from site of collapsed Rodanthe home

<https://www.esc.guide/post/17-03-23-70-truckloads-of-debris-have-been-removed-from-site-of-collapsed-rodanthe-home>

An estimated 70 truckloads of debris have been removed from the shoreline over the past three days, following the collapse of an oceanfront home in Rodanthe on East Point Drive on Monday, March 13.

#### UMS 800 HT

<https://www.esc.guide/post/ums-800-ht>

UMS 800 HT is fully welded aluminum boat. It has open bow with lockers, which allows comfortably accommodate passengers or transport baggage. UMS 800 HT will easily satisfy professional and family users, as it can be optionally equipped with two-person sleeping place (transformed from seats in the cabin), fridge, heater and bio-toilet. On top of that, due to its size and weight the boat is optimally powered by 300 h.p. engine and can be comfortably transported with a trailer.

#### Retro Style Backyard Container Bar with Colorful Interior

<https://www.esc.guide/post/retro-style-backyard-container-bar-with-colorful-interior>

Our 4x2 Container Bar was decorated on the inside and outside with a retro 60s style!

#### BULDock / #FloatingDocks

<https://www.esc.guide/post/floating-docks>

BulDock's strong commitment to innovation and continuous development give the brand several distinguished advantages over other players in the industry. Our products are created through cutting-edge technology to deliver secure, efficient and durable floating solutions. Made from 100% HDPE and manufactured in Italy, our products adhere to the strictest international standards.

They are environmentally friendly and suitable for any type of shorelines and seabed.

### BULDOCK #MARINA

<https://www.esc.guide/post/buldock-marina>

Because of its' flexibility, BulDock modular floating system can be configured into a marina of any size and shape. It's easy to assemble and suitable for high-load capacities.

### SHERP / Case Study: Bay #SearchAndRescue

<https://www.esc.guide/post/sherp-case-study-bay-search-rescue>

All Terrain Transport, #RescueAndRecovery Team. Moor Lane, Flookburgh, United Kingdom.

### WATERCAR / H1-Panther

<https://www.esc.guide/post/watercar>

With 20+ years of experience and all the successes and failures behind them, this turned out to be by far the most challenging project the team has ever attempted.

The end product speaks for the skill and tenaciousness of the #WaterCar team in **USA**. Capable of highway speeds on land and thirty-five knots on water, the four-wheel-drive H1-Panther transitions between land and water in under 20 seconds.

### WATERCAR / H1-Panther - Operational Instructions Video

<https://www.esc.guide/post/watercar-operational-instructions-video>

With 20+ years of experience and all the successes and failures behind them, this turned out to be by far the most challenging project the team has ever attempted. The end product speaks for the skill and tenaciousness of the #WaterCar team in **USA**. Capable of highway speeds on land and thirty-five knots on water, the four-wheel-drive H1-Panther transitions between land and water in under 20 seconds.

### MENZI MUCK #BridgeRepair

<https://www.esc.guide/post/menzi-muck-bridge-repair>

In #construction Menzi Muck is a synonym for an extremely versatile and powerful tool.

### WATERCAR - EV

<https://www.esc.guide/post/watercar-ev>

World's First Electric Amphibious Vehicle

### Monday 18

#### CECLO

<https://www.esc.guide/post/ceclo>

REV inside is a designer and manufacturer of nautical electric recreational vehicles. Based in south of France, we create elegant products with outstanding technologic performances. Our first product: Ceclo, an innovative electric pedal boat to explore open water and sail in style. With its sleek, streamlined design, this customized boat is a perfect blend of performance and comfort. It's easy to navigate, and doesn't require any previous boating experience.

Ceclo is electrically powered, silent and environmentally friendly.

#### CECLO - #Summertime

<https://www.esc.guide/post/ceclo-summertime>

The second-largest naval exercise in the world has ended across the Middle East.

#### GRABNER / #InflatableKayaks

<https://www.esc.guide/post/inflatable-kayaks>

#Kayaks are boats that are paddled in a sitting position with a double paddle. They are available for one, two or three persons. A steering device helps you stay on course. A steering device makes it easy to stay on course. Depending on the model, kayaks are suitable for both calm water and light white water. Some models you can even ride in stronger white water.

#### GRABNER #PaddleAcademy

<https://www.esc.guide/post/grabner-paddle-academy>

In these videos you will learn the most important basic paddling skills. You will learn which different types of boats there are, how to safely get into a boat, which seating position is useful and the basic paddle strokes. Everything is explained as simply as possible so that you can concentrate on the essentials. The Grabner Paddle Academy Team wishes good success and lots of fun on the water!

#### GRABNER / #InflatableSailCatamarans

<https://www.esc.guide/post/inflatable-sail-catamarans>

The HAPPY CAT is an inflatable catamaran that can be transported in just 3 bags. The 4-piece mast is plugged together and fit into the 185 cm long bag. The HAPPY CAT fits in almost any car, RV and can even be taken on the plane. With a little practice, the catamaran can be assembled by one person in around 30 minutes. The hulls are inflated with a hand pump or electric air pump in about 5 minutes.

#### GRABNER #SailingAcademy

<https://www.esc.guide/post/grabner-sailing-academy>

In these videos you will learn the most important basics of sailing. If you've always wanted to learn how to sail, these films are just right for you. The chapters are structured similarly to a basic sailing licence in a sailing school. Everything is explained as simply as possible so that you can concentrate on the essentials.

### 8<sup>th</sup> International HAPPY CAT sailing meeting 2023

<https://www.esc.guide/post/8th-international-happy-cat-sailing-meeting-2023>

After a 3-year break due to a pandemic, the popular HAPPY CAT sailors' meeting finally took place again in 2023 in Ebensee on Lake Traunsee. In changeable summer weather, over 70 HAPPY CATs and 150 people from 7 nations (Germany, Austria, Switzerland, Belgium, Czech Republic, Slovakia, Hungary) sailed across Lake Traunsee.

### UMS 655 DC Fishing

<https://www.esc.guide/post/ums-655-dc-fishing>

The UMS 655 DC Fishing boat will satisfy avid fishermen and connoisseurs of comfortable recreation on the water. The boat is equipped with a traditional bow fishing platform with an increased volume aerator and a storage locker for six fishing rods in the cockpit. The aft seat, which is a part of the aft fish platform, is equipped with a quickly removable backrest. This allows you to comfortably accommodate passengers without losing a large fish platform. UMS 655 DC Fishing is equipped with a convertible type awning, which is stored in a special locker of the aft fish platform. This makes unfolding the awning much faster and easier in bad weather. The boat easily goes to plane at full load with a 150 h.p. engine.

### BARBER / ROAD RAKE - #RoadwayLitterCollection Machine

<https://www.esc.guide/post/road-rake>

The Barber ROAD RAKE's primary purpose is to remove large debris from the sides of roads, highway medians, shoulders, parking lots, and other paved surfaces that are too large and potentially damaging for street sweepers.

### WATERCAR - EV

<https://www.esc.guide/post/watercar-ev>

World's First Electric Amphibious Vehicle!

### 21/03/23: Royal Navy completes world's second-largest maritime exercise

<https://www.esc.guide/post/21-03-23-royal-navy-completes-world-s-second-largest-maritime-exercise>

The second-largest naval exercise in the world has ended across the Middle East with Royal Navy ships and sailors pushing technological boundaries and sharing their expertise to a raft of allies.

### 21/03/23: Ukraine: how uncrewed boats are changing the way wars are fought at sea

<https://www.esc.guide/post/21-03-23-ukraine-how-uncrewed-boats-are-changing-the-way-wars-are-fought-at-sea>

When Ukraine successfully deployed self-driving "drone" boats for a major attack on the Russian navy at Sevastopol in Crimea in September 2022 it was a defining moment that changed the future of naval warfare. Uncrewed surface vessels (USVs) have been used before, but this was the first instance of multiple, armed USVs, used simultaneously in combination with aerial drones for a successful, offensive naval operation on a military target.

Friday 22

### BARBER / SURF RAKE - #BeachCleaningMachines

<https://www.esc.guide/post/en-surf-rake>

The Barber SURF RAKE is the world's most popular beach cleaning machine and is used in over 90 countries on 6 continents. As a tractor-towed machine, it is ideal for cleaning medium to large beaches.

Barber beach cleaning machines are effective in removing beach pollution such as seaweed, dead fish, glass, syringes, plastic, cans, cigarettes, shells, stone, wood and virtually any unwanted debris. Barber beach cleaning machines are even used to effectively remove oil and tar balls from beach sand after oil spill disasters.

### 22/03/21: Dirty beaches: Man and Mother Nature to blame

<https://www.esc.guide/post/22-03-21-dirty-beaches-man-and-mother-nature-to-blame>

Pompano Beach – Mother Nature plays a major role in the cleanliness of coastal beaches. While beachgoers leave behind all manner of debris – from food containers to sharp objects – sea turtles and seaweed impact beach cleanups every day.

### iHouse

<https://www.esc.guide/post/iohouse>

At iHouse, our mission is to create high-quality buildings that support a sustainable lifestyle. We want to produce homes that blend in with their natural surroundings without any negative impact. Our houses are created for people who love nature and want to preserve the environment, as our designs are respectful of both passions.

### BARBER / SURF RAKE - Μηχανήματα Καθαρισμού Ακτών

<https://www.esc.guide/post/barber-surf-rake>

Το Barber SURFRAKE είναι το πιο δημοφιλές μηχάνημα καθαρισμού ακτών στον κόσμο και χρησιμοποιείται σε περισσότερες από 90 χώρες σε 6 ηπείρους. Είναι μηχάνημα που χρησιμοποιείται συνδυαστικά με τρακτέρ, πράγμα που το καθιστά ιδανικό για τον καθαρισμό μεσαίων έως μεγάλων ακτών.

### Football Club Bar Container 4x2m RAL 8000 - FC Lisse

Wooden flooring is prepared into panels for easy installation. Under flooring is a powder-coated metal frame. The fabric is breathable and 100% waterproof and windproof.

### Glamping tents to expand the existing place

<https://www.esc.guide/post/glamping-tents-to-expand-the-existing-place>

Planning to open a seasonal restaurant? Want to expand the existing place and cover the outdoor terrace? Glamphouse #glamping tents are a perfect fit for all #CateringNeeds!

### High Speed #LandingCraft – Predator

<https://www.esc.guide/post/high-speed-landingcraft-predator>

The Predator is the same platform as the Build #9 and Build #12 and also includes a few upgrades.

### UMS 545 DC

<https://www.esc.guide/post/ums-545-dc>

Boat UMS 545 DC – light and comfortable vessel with two consoles and spacious cockpit. It offers maximum protection from weather conditions for driver and passenger. In the bow part there is even more place for fishing, hunting or baggage transportation comparing to 485 DC.

### UMS 585 DC

<https://www.esc.guide/post/ums-585-dc>

Boat UMS 585 DC – Designed for hard operating conditions on open water, the uncompromisingly strong and reliable hull will be a convenient universal solution for active family recreation, fishing and solving professional tasks. High flip resistance allows you to confidently perform maneuvers at the highest speeds. A boat with complex shape and excellent seaworthiness. We removed rivets and fasteners in the hull construction – all parts are securely welded to the hull, which ensures long-term operation without the need for maintenance of your boat. Careful building of the hull allows to make boats without additional painting.

27/03/18: Help Us Make Esker Beach Great!

<https://www.esc.guide/post/27-03-18-help-us-make-esker-beach-great>

Groton Parks and Recreation is investing in a fantastic piece of equipment to keep the shoreline sand and beach volleyball courts at Esker Point Beach clean and free of debris and seaweed – a Barber Surf Rake Model 400HD!

### UMS 585 CC

<https://www.esc.guide/post/ums-585-cc>

Boat UMS 585 CC is being built on the basis of hull UMS 585 DC, however it is fitted with central console, which comfortably accommodates driver and passenger. Due to its layout UMS 585 CC has passages alongside the boards offering more freedom to the users. High flip resistance, excellent seaworthiness and spacious cockpit make this boat really interesting for professional use.

### UMS 805 DC

<https://www.esc.guide/post/ums-805-dc>

Introducing the 805 DC – a serious vessel built for both leisure and work on the water. With a spacious LOA of 7.88 meters this boat can comfortably accommodate up to 8 passengers and carry a maximum load of 1500kg.

Whether you're cruising on the open water or working on a project, the 805 DC will provide you with the comfort and confidence you need to tackle any challenge. With a design category of C, you can trust in its safety and reliability for all your aquatic adventures.

### UMS 655 DC

<https://www.esc.guide/post/ums-655-dc>

Boat UMS 655 DC is a 6-meter boat, what makes it serious vessel for leisure or work on water. Powerful and reliable hull with 4 mm thick bottom instill trust.

Many years of boat building experience, embodied in the hull shape, realize excellent hydrodynamic and driving characteristics. Driving this boat, you will feel comfort and confidence!

**Friday 29**

### SHERP FF – #Firefighting Edition

<https://www.esc.guide/post/sherp-firefighting>

SHERP Firefighting UTV is a one-of-a-kind solution to fight forest fires, that embodies all the best technologies and capabilities of SHERP!

### SHERP / Case Study: OSP Nowy Cydzyn

<https://www.esc.guide/post/sherp-case-study-osp-nowy-cydzyn>

#CivilProtection of Nowy Cydzyn - a village in Poland located in the Podlaskie Voivodship, in the Łomża County.

### SHERP / Case Study - "To the East!" from Archangelsk to Anadyr

<https://www.esc.guide/post/sherp-case-study-to-the-east-from-archangelsk-to-anadyr>

A big SHERP ATV expedition "To the East!" from Archangelsk to Anadyr, and further to America (in 2019), has started in spring 2017. First part of the route is taking place on off-road terrain in the polar summer conditions. After a technical break during which the team will go back to the mainland, the expedition will go across Bering Sea, that washes the coasts of Russia and USA and continue its way to Alaska. The entire expedition will be done on the SHERP ATVs (10 wheel unit). The beginning of the second part of the expedition is planned for the beginning of the 2019.

### SHERP The Ark - People Mover

<https://www.esc.guide/post/sherp-the-ark>

The people mover version of SHERP the Ark is designed to carry groups of people in the most extreme conditions. This powerful machine can be used in rescue operations for victims of natural disasters, such as floods or earthquakes. It will also be easier to organize extreme tours for thrill seekers. The passengers will be as safe as the driver. Another obvious advantage of the passenger model is the ability to take on board up to 21 passengers (3 in the front section and 18 in the rear section) plus the driver. Transporting or saving people will require less time and effort. All the main characteristics of SHERP the Ark are the same: the machine is capable of traversing grass, forest, sand, peat, moor, marsh, beach, dunes, rocks, scree, gravel, snow, ice, and climbing from water to ice.

### SHERP / Case Study - VIP tourism

<https://www.esc.guide/post/sherp-case-study-vip-tourism>

Join us on a unique trip on all-terrain vehicles through the uncharted areas of northern Yakutia. The name «Olonkho» refers to the ancient epic art of the Sakha people (the Yakuts).

### SHERP / Case Study: #WorldFoodProgramme

<https://www.esc.guide/post/sherp-case-study-world-food-programme>

The All-Terrain Vehicle Helping Us Save Lives in the Hardest-to-Reach Places.

### SHERP S&R - #SearchAndRescue Edition

<https://www.esc.guide/post/sherp-n-search-rescue-edition>

SHERP Search & Rescue UTV is the best assistant in saving lives and delivering rescuers to the places of rescue operations where standard rescue vehicles, helicopters and other equipment cannot reach due to a) remoteness of the location, b) inaccessibility of the location, c) severe nature and weather conditions.

### SHERP / Case Study: Bay #SearchAndRescue

<https://www.esc.guide/post/sherp-case-study-bay-search-rescue>

All Terrain Transport, #RescueAndRecovery Team. Moor Lane, Flookburgh, United Kingdom.

### UMS 655 DC Fishing

<https://www.esc.guide/post/ums-655-dc-fishing>

The UMS 655 DC Fishing boat will satisfy avid fishermen and connoisseurs of comfortable recreation on the water. The boat is equipped with a traditional bow fishing platform with an increased volume aerator and a storage locker for six fishing rods in the cockpit. The aft seat, which is a part of the aft fish platform, is equipped with a quickly removable backrest.

This allows you to comfortably accommodate passengers without losing a large fish platform. UMS 655 DC Fishing is equipped with a convertible type awning, which is stored in a special locker of the aft fish platform. This makes unfolding the awning much faster and easier in bad weather. The boat easily goes to plane at full load with a 150 h.p. engine.

### UMS 545 DC Fishing

<https://www.esc.guide/post/ums-545-dc-fishing>

The boat UMS 545 DC Fishing is the embodiment of a watercraft convenient for fishing and recreation on the water with a family at the same time. This is possible due to the seat-transformer integrated into the aft fish platform.

The aft seat can accommodate 3 people, which allows you to comfortably relax and travel in a company of up to five people in a boat. But it should be kept in mind that at full load, the maximum drive will be available with the maximum engine!

### UMS 585 DC Fishing

<https://www.esc.guide/post/ums-585-dc-fishing>

The UMS 585 DC Fishing boat is designed for active fishing, it is a fast and dynamic boat with a maximum engine of up to 150 hp. The boat has all the elements of fishing boats: a locker for six fishing rods, an aerator with a volume of 90 liters in the bow fish platform, a comfortable aft fish platform with two integrated seats and the possibility of additionally install a fisherman's seat and a pole for towing a skier or a wakeboarder.

One of the features of the boat is a convertible awning, which is stored in the aft fish platform locker, and can be used as a bimini for protection from the sun, or a full awning with side walls during rain.

### UMS 865 Cab

<https://www.esc.guide/post/ums-865-cab>

Completely aluminum boat UMS 865 is the largest serial cabin boat built by UMS company. The UMS 865 Cab modification is equipped with a comfortable cabin in the bow, which provides possibility of rest during long trips. UMS 865 Cab, like UMS 865 HT, can be equipped with one or two engines with a total capacity of up to 500 hp. Due to the high strength characteristics, UMS 865 withstands even the most severe conditions. The size of the boat provides enough space for both professional tasks and active recreation. In addition, the boat can be equipped with a sleeping place in the cabin, a heater, a kitchen module, a refrigerator and a toilet in a separate compartment.

### UMS 800 HT

<https://www.esc.guide/post/ums-800-ht>

UMS 800 HT is fully welded aluminum boat. It has open bow with lockers, which allows comfortably accommodate passengers or transport baggage. UMS 800 HT will easily satisfy professional and family users, as it can be optionally equipped with two-person sleeping place (transformed from seats in the cabin), fridge, heater and bio-toilet. On top of that, due to its size and weight the boat is optimally powered by 300 h.p. engine and can be comfortably transported with a trailer.

### UMS 700 HT

<https://www.esc.guide/post/ums-700-ht>

The UMS 700 HT aluminum boat is a speed boat. It is intended for use with outboard motors with a maximum power of up to 250 hp. Like all boats built by the UMS company, it has unique characteristics of strength, the boat is adapted to the most severe operating conditions. Designed for rescuers, water police and other services related to water spaces, for fishermen, hunters and people who lead an active lifestyle. For additional comfort, the boat can be equipped with a sleeping place.

### UMS 800 Cab

<https://www.esc.guide/post/ums-800-cab>

UMS 800 Cab is fully welded aluminum boat. For bigger company modification this boat offers cozy sleeping cabin in the bow, which will help comfortably spent several nights in the boat.

UMS 800 Cab will easily satisfy professional and family users, as it can be optionally equipped with two-person sleeping place (transformed from seats in the cabin), fridge, heater and bio-toilet. On top of that, due to its size and weight the boat is optimally powered by 300 h.p. engine and can be comfortably transported with a trailer.

### UMS 865 HT

<https://www.esc.guide/post/ums-865-ht>

Completely aluminum boat UMS 865 is the largest serial cabin boat built by UMS company. The UMS 865 HT modification is distinguished by an open bow with lockers for baggage storage. This provides opportunities for recreation or fishing during nice weather conditions. The boat can be powered by one or two engines with a capacity of up to 500 hp. Due to the high strength characteristics, UMS 865 withstands even the most severe conditions. The size of the boat provides enough space for both professional tasks and active recreation. In addition, the boat can be equipped with a sleeping place in the cabin, a heater, a kitchen module, a refrigerator and a toilet in a separate compartment.
