## The idea of this boat

We want your clients to get the full experience of being on the water. We have put your clients in front of the captain so they are there with nature. They can feel the warm wind & small water droplets as they have a lot of fun. No client should leave the boat not having smiled once. This is an all-family boat, from small children to the elderly, everybody feels welcome and not threatened. Even the adrenaline junkie won't feel bored. The boat looks beautiful and robust so you have to spend less on marketing & the boat is easy to maintain. An aluminium boat is an investment for a long time for your business profitability.

## Technical Information

<b>Length:</b>	8.97 meter (29.42 feet)
<b>Width:</b>	2.81 meter (9.21 feet)
<b>Draft:</b>	0.33 meter (1.08 feet)
<b>Total height:</b>	2.82 meter (9.25 feet)
<b>Empty weight:</b>	1560 kg (3439 pounds)
<b>Max weight:</b>	3860 kg (8510 pounds)
<b>Max load:</b>	2000 kg (4409 pounds)
<b>Fuel capacity:</b>	400L (up to 600L)
<b>Material:</b>	Aluminium
<b>Passenger Capacity:</b>	20 persons
<b>Crew:</b>	2 persons
<b>CE Certified:</b>	C category vessel

## Horsepower-to-knots

200hp – 32 knots, 300hp – 38 knots, 400hp – 43 knots

**Capacity: Seating for 20 passengers and 2 crew!**

The speedboat for a wider audience. Service anybody from small children to the elderly safely and comfortably. The boat has seating for 20 passengers in the front deck and seating for two crew members at the back in the cabin.

**Go anywhere: Low draught!**

The draught of the boat is only 0.35 meters and the engine is mounted onto a lift-system. It all makes this boat capable of operating in low waters. You can also land on shore in difficult places without a problem. 6-millimeter aluminum under her belly makes her strong and safe to go into low waters.

**Eye-catching design: An eye-catching boat will be its own marketer!**

The boat was made to stand out from the crowd and get more customers. With underwater lights and flashy colors, your boat can be its own marketing machine.

## Easy to transport anywhere: Trailerable!

The boat weighs only 1.8 tons and its width is only 2.81 meters. This makes it easy to transport with trailers. If you need a trailer to move your LR9, just let us know!

## Aluminium

### Life span

Boats made of aluminium clearly has the longest life span of the two. A very high material strength, good corrosion resistance, and other advantages of aluminum makes it possible for an aluminum boat to easily live 30-40 years. This longevity also results in a low impairment and a high resale value.

### Durability

Aluminum has considerable ductility, i.e., the ability to withstand permanent deformation without rupture. This is because aluminum has a low modulus of elasticity, it absorbs the energy of the impact and prevents damages. Aluminum is not affected by ultraviolet rays from the sun, which can damage the fiberglass boat gel coat, the hull, and underlying structure. This will make fiberglass boats fragile over time.

### Less maintenance

**Price**

<b>LR9 Safari</b>	<b>104.000€</b>
SUZUKI 2 x 140HP = 280HP (15.000€ x 2)	30.000€
<b>Total boat price (boat+ engines):</b>	<b>134.000€</b>

**BASE SPECIFICATION:**

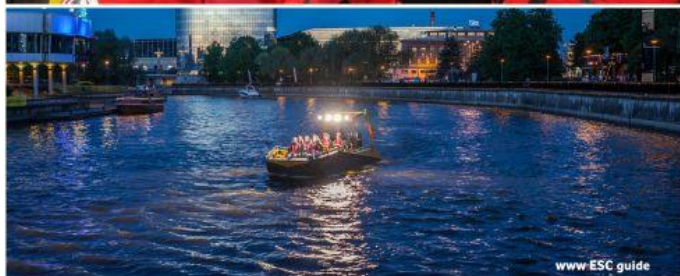

- Navigation lights
- Search lights
- Cabin lights
- Underwater lights
- Passenger seating: 20 persons
- Crew seating: 2 persons (original seats)
- Bilge pumps: 2
- Trims: Zipwake
- Communication radio
- Garmin GPSmap
- Fuel tanks: 400L
- Horn
- Ready for engine installation!
- Colour of your choice!
- Swimming ladder

**OPTIONS:**

- Radar system
- AIS system
- In-board engine (Yanmarine or MerCruiser)
- Out-board engines (Yamaha, Suzuki,MerCruiser)
- Crew Viking life-vests
- Passenger Viking life-vests
- 600L fuel tank
- Big screen GPS
- Wheelchair accessibility
- Boat trailer
- Engine lift system
- Jet-Thruster bow thrusters
- Fully equipped with ropes:
  - anchor,
  - vests,
  - lifebuoy,
  - cleaning equipment,
  - battery charger, bucket,
  - fire extinguishers,
  - fenders

**More Power**
